

What is claimed is:

1. A structure of a patterned zipper comprising:

two zipper tapes;

a plurality of patterns formed on the two zipper tapes; and

5 a plurality of teeth with at least two different colors crisscrossedly fixed on two insides of the two zipper tapes, so that the teeth do not separate the patterns that are on the two zipper tapes to keep the patterns complete.

2. The structure of the patterned zipper as claimed in claim 1, wherein the patterns on the two zipper tapes are complementary designs.

10 3. The structure of the patterned zipper as claimed in claim 2, wherein parts of the teeth on the patterns of the two zipper tapes are respectively colored with the same color as the patterns of the two zipper tapes.

4. The structure of the patterned zipper as claimed in claim 1, wherein parts of the teeth on the patterns of the two zipper tapes are respectively
15 colored with the different color as the patterns of the two zipper tapes.

5. The structure of the patterned zipper as claimed in claim 2, wherein the patterns are dyed.

6. The structure of the patterned zipper as claimed in claim 2, wherein the patterns are embroidered.

20 7. The structure of the patterned zipper as claimed in claim 1, further comprising a slider disposed between the two zipper tapes for closing the patterned zipper.
